

### RRC VACANCY: RESTORATION & INFORMATION ADVISER

RRC is looking for a Restoration and Information Adviser. The deadline for applications is the 9th December. Responsibilities of the role include:

- Supporting RRC staff and external advisers to deliver specialist technical advice/ training about options for best practice river management and restoration;
- Collection and dissemination of technical data/information on aspects of UK-wide river restoration and best practice management;
- Coordinating and maintaining the existing RRC information resource and disseminating this through case studies, the RRC bulletin and newsletters, the reference library and through online media;
- Helping deliver the RRC annual conference and other events RRC are involved in.

[Click here](#) for more information and how to apply.

### CONFERENCE DATES FOR YOUR DIARY

The **RRC 2013 Annual Network Conference** will take place at Whittlebury Hall Spa and Leisure Club in Northamptonshire on the **30th April and the 1st May**. Featuring a range of oral presentation, poster and workshop sessions as well as optional site visits, the programme and booking facility will be available online from Wednesday (5th December) with early-bird rates available.

Another date for your diary is the **5th European River Restoration Conference: Restoring Rivers in Europe: Celebrating Successes and Addressing Challenges**, which will mark the end of the LIFE+ RESTORE project. This will take place in Vienna between the 11th and the 13th September 2013.

The River Restoration Centre is the West Region lead organisation for the [EU LIFE+ RESTORE Information and Communication project](#) (2010-2013) which encourages the communication of sustainable river restoration best practice across Europe.

### RIVER RESTORATION ON THE ALLT LORGY IN SCOTLAND

*Boulders on the left bank bar have been replaced with trees to increase ecological value*

The Spey Fishery Board in Scotland have recently undertaken a river restoration project on the Allt Lorgy, a tributary of the River Dulnain in the Spey Catchment.

The project was instigated and managed by the Spey Catchment Initiative, with the design work being undertaken by CBec. A [short summary of the project](#) including photography before and after has been compiled for the RRC Bulletin by Liz Henderson, Spey Catchment Initiative Project Officer.

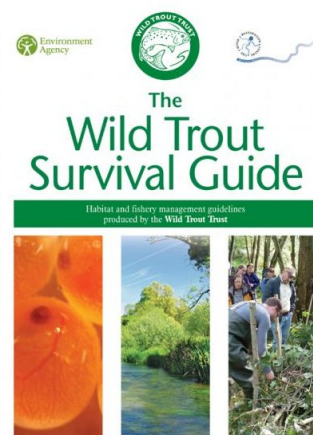

For more information, please visit the Spey Fishery Board [website](#) to get in touch.

### NEW HABITAT AND FISHERY MANAGEMENT PUBLICATIONS

*"From Sea to Source"* provides guidance on fish migration and the restoration of fish habitat. Featuring case studies from around the world, it is available as a [hard-copy](#) (€25 + shipping costs) or as a [low-resolution PDF](#) (free download).

*The Wild Trout Trust Survival Guide (and DVD)* compliments existing habitat and fishery management guidelines produced by the Wild Trout Trust with the Environment Agency and RRC. [Order a copy today](#) from the WTT website (£10 +p&p).

### LATEST RIVER ANNOUNCEMENTS AND EVENTS *INCLUDE:*

**[Workshop: evaluating the scientific basis for river and catchment restoration necessary to achieve GES under WFD - January 17th 2013](#)**
